Self-introduction

My interest in the master's degree is the Eucharist of the second century; My current interest is in the philosophy of history, especially the inheritance of medieval Islamic philosophy and Aquinas. I also studied some issues concerning the integration of Islam and Chinese philosophy. My Ph.D. training research will focus on the following items: Liu Zhi's theory and Heidegger's time and being; Ibn Rushd and Siger of Brabant's work "Quaestiones in tertium de Anima"; Human desire and the agency of love.
